

# **Blaine County Fish & Game**

## *User Guide*

This document will help new users install the BCF&G EUP, navigate to it in-game and more. Happy reading and thank you for downloading!

## **File Contents**

---

Upon downloading the file, you should be greeted with four folders. Each folder and its purpose is explained below:

- Documentation
  - Contains this guide alongside an EUP Catalogue. Purpose is to help new users have an easy transition into utilizing the EUP package.
- EUP Assets
  - This is the folder that contains all the YDD's and YTD's you need to import into your EUP stream folder.
- Extras
  - This contains a copy of the badge and patch for you to use on documents, etc.!
- Pictures
  - This contains awesome pictures of the EUP you are about to install!

## **How to Install**

---

To begin the installation, simply open up your **eup-stream > stream** folder and also open up the **[EUP Assets]** folder. Simply drag all files from the **[EUP Assets]** folder into the **stream** folder.

## **vMenu Numbers**

---

We have compiled a quick, short, and simple spreadsheet that you can use to find the vMenu numbers quickly! Please ensure you are using the Ped Customization menu and NOT the menu with the fixed camera. If you cannot find the piece using the numbers provided on the document, try each of them one number back. You can find the EUP Catalogue [here](#) or in the **[Documentation]** folder.
